Crying Girl

Waaa Waaa? Waa?

(tears fall, and blow in the wind) Waa Waaa? Waaaa?

Her hand can pick the tears off, and the water level lowers the more are off.

If she keeps crying, the water raises → Camera pans down to her legs, and control is brought into a shark that can bite her legs. If it bites, the teeth are little men. If the shark swims down instead, he goes into Bat land and it gets darker.

Or leg can go into Square Land, where a square is a border and the leg has to move around the square and bounce around whilst bleeding a lot.
